

NEW EUROPEAN INITIATIVE IN THE FILM INDUSTRY

CALL FOR PROJECTS

In May 2022, 9 European Funds officially launched NEW DAWN at Festival de Cannes to support more diversity in the international film industry.

The film industry is still unequal in many ways. With the introduction of **NEW DAWN** the participating funds want to explore more ways to establish variety and representation. A vibrant, open and inclusive film industry with true diversity of perspectives and filmic expressions has relevance for everyone.

Through NEW DAWN, filmmakers are invited to contribute to this mission. NEW DAWN will operate as a production fund by making additional funding available for film productions and by supporting film makers in setting up networks. The fund supports up to €200.000 for a feature film (fiction or animated film) and up to €100.000 for a feature-length documentary. The first submission **deadline is June 27th, 2022.**

Applications for NEW DAWN can only be submitted by an independent production company (a legal entity) based in one of the participating countries of NEW DAWN: Belgium, Finland, Ireland, Luxembourg, The Netherlands, Norway, Portugal and Sweden.
